

Analytically-minded professional transitioning from a digital marketing background into data analytics, backed by graduate coursework in statistical modeling, optimization, and applied machine learning through Georgia Tech's OMSA program. Experienced translating data into decisions using Python, R, SQL, and marketing/business performance data.

EDUCATION

Georgia Institute of Technology — M.S. in Analytics (OMSA)

In Progress — Expected Aug 2027

Relevant coursework: Computing for Data Analysis, Analytics Modeling, Business Analytics

University of Pittsburgh — B.S., Business Administration

2018

Marketing & Supply Chain Management, Minor: Spanish

GRADUATE COURSEWORK & PROJECTS

Customer Segmentation & Dimensionality Reduction

CSE 6040

- Applied k-means clustering and PCA/SVD in Python (pandas, NumPy) to segment and reduce high-dimensional data, and built regression models from scratch — the same pattern-recognition techniques used to group customers and simplify large datasets for targeting.

Resource Optimization & Simulation

ISYE 6501

- Built discrete-event simulations in SimPy and a mixed-integer optimization model in PuLP to solve a constrained resource-allocation problem — mirroring how businesses allocate limited budget, staffing, or inventory under real-world constraints.

Customer Retention & Choice Modeling

MGT 6203

- Built Weibull survival models and multinomial logit discrete choice models in R to predict customer churn timing and product/option selection — the analytical framework used in industry for retention and demand forecasting.

SKILLS

**Programming & Data:** Python, R, SQL, PuLP (optimization), SimPy (simulation)  
**Statistical & ML Methods:** Linear & Logistic Regression, Classification (k-means, PCA/SVD), Survival Analysis, Discrete Choice Modeling, Markov Chains, Mixed-Integer Programming, A/B Testing  
**Marketing & Business Analytics:** Google Analytics (GA4), Looker Studio, HubSpot, SEMrush  
**Certifications:** Google Analytics (GA4), Google Ads

PROFESSIONAL EXPERIENCE

Willi's Ski Shop

Ecommerce & Marketing Manager

Aug 2025 – Present

- Manage ecommerce operations end-to-end via Shopify, including website design, content updates, and maintenance.
- Plan and execute paid campaigns on Google Ads and Meta, reporting performance through ad platforms and GA4 to guide marketing decisions.
- Create digital and in-store marketing assets supporting product launches and seasonal promotions.

Manager

Aug 2014 – Mar 2021, Sep 2024 – Aug 2025

- Managed seasonal store operations, inventory, and vendor relationships during peak business periods.
- Mentored and trained new employees on product knowledge and sales strategies.

RealizedCare — Performance Marketing Associate

May 2023 – Sep 2024

- Developed comprehensive performance reports using Google Analytics and HubSpot, analyzing campaign and customer data to inform leadership decision-making.
- Managed campaign budgets and applied bid strategies, using performance data to maximize ROAS and lead generation.
- Designed and automated HubSpot CRM customer journeys, optimizing lead funnel efficiency using engagement data.
- Spearheaded multi-channel campaigns (SEM, PPC, email, retargeting) to drive lead generation and conversion.

Pivot Health Technologies Inc. — Digital Marketing Specialist

Jun 2022 – Mar 2023

- Analyzed campaign performance and brand awareness metrics to refine strategy and maximize ROI.
- Created data-driven demand generation campaigns across paid search, paid social, and programmatic platforms.
- Managed budget allocation, media buying, and campaign optimizations based on performance data.

Fifth Influence — Account Manager

Apr 2021 – May 2022

- Managed 10+ client accounts, delivering performance reports with data-backed strategic insights and recommendations.
- Oversaw multi-channel digital marketing campaigns (paid search, paid social, display) to meet client objectives.
